- Selling metal and metal ores.
- Wholesaler of construction materials and equipments.
- Producing measurement, directional inspection and control equipments.
- Consultanting, mediating and auctioning real estates, auctioning right of land use.
- Exploiting metal ores which contain no iron.
- Exploiting and collecting hard coal
- Exploiting crude oil, natural gas.
- Exploiting iron ore.
- Exploiting chemical and fertilizer minerals.
- Exploiting and collecting peat.
- Supporting actions of exploiting mining and other ores.
- Designing and surveying mining industry construction.
- Surveying geology of works.
- Supervising constructional execution and completion of: mining exploitation, topography survey.
- Appraising designs as competence.
- Consulting of mining designs, road designs, bridge designs, civil and industrial designs
- Verifying geodesic machines and equipments
- Providing machines, equipments and instruments for hire

**THE MINING - GEOLOGY DESIGN SURVEY
AND CONSTRUCTION CONSULTING JOINT STOCK COMPANY**

- Assessing environmental impacts of constructional, industrial works and so on;
- Measuring, surveying and creating topographic maps, geopolitical maps, special subjects maps; producing geodesic – mapping equipments according to digital criterias;
- Geological and hydrogeological drilling; Drilling for mining groundwater; constructing and executing water supply projects; Minerals survey and exploration
- Feasibility study, creating investable projects of mining, geological, geodesic, traffic, building constructions; Technical designing of mining, constructing and traffic execution;
- Technological transfers, transferring execution of mining, geologic and geodesic, building and traffic constructions;
- Training professional in exploding, informatics, professional in English, Chinese and Russian translation of mining, geologic and geodesic documents, training managerial staffs; mine managing directors;
- Civil, mining, industrial, irrigational constructions;
- Trading scientific and technical equipments;
